EXPERIENCE

React Native Developer, Chop Dawg 06/2022 – Present | Philadelphia

- Translated design concepts into functional user interfaces and interactive components for mobile applications.
- Analyzed market landscape to identify gaps and opportunities; implemented strategic app improvements that led to a 25% increase in user retention and a 10% boost in in-app purchases.
- Collaborated with cross-functional stakeholders, including product owners, project managers, and developers, to streamline integration processes, resulting in a 25% reduction in development time and improved product quality.

React Native Developer, HelloWorld Technologies 08/2018 – 06/2022 | Pakistan

- Applied React Native skills to create robust and responsive mobile applications.
- Successfully integrated third-party APIs, including Google Maps, Firebase, OneSignal, and REST APIs.
- Enhanced app functionality by leveraging the power of external APIs.
- Demonstrated a hands-on approach to learning and applying technologies in real-world app development scenarios.

Web Developer (PHP), HelloWorld Technologies 10/2016 – 05/2018 | Pakistan

- Initiated career journey by acquiring skills in web design and back-end development.
- Actively engaged in practical application with PHP and MySQL technologies.
- Illustrated dedication and adaptability throughout the learning process.

EDUCATION

Bachelors in Computer Science, 2015 – 2019
Islamia University of Bahawalpur

Intermediate (12th), 2013 – 2015
Khawaja Fareed Govt. College RYK, Pakistan

SKILLS

Redux | Firebase/Realtime Database | React Navigation | Firebase/Authentication |
Firebase/Cloud Firestore | Firebase/Cloud Functions | ReactJS | JavaScript | JQuery | GitHub |
NestJS | PHP | GitHub | GraphQL | mySQL | Xcode | Android Studio | APIs Integration

PROJECTS COMPLETED

CourseCaddie

06/2025 – 11/2025

- Developed a mobile app for golf course discovery, reviews, and social networking.
- Built a map-based search, course ratings, and a personalized "favorites" system.
- Implemented social features including friend activity feeds and competitive leaderboards.

CollabMind

09/2024 – 05/2025

- Developed a React Native platform to streamline communication between architects, clients, and contractors.
- Centralized project documentation and decision-tracking across all renovation phases.
- Built role-based workflows for mobile and web to improve stakeholder collaboration.

QuickTales

10/2023 – 11/2024

- Developed a multimedia platform for "QuickTales"—short audio narratives attached to photos.
- Enabled seamless user storytelling through a voicemail-style recording interface.
- Implemented private/public sharing features and interactive audio reaction capabilities.

DiverseCity- Health & Fitness

11/2022 – 08/2023

- Developed a cross-platform (iOS/Android) fitness app using React Native and Redux.
- Implemented live and on-demand workout sessions with real-time progress tracking.
- Integrated Firebase, Google, and Apple Authentication for secure user onboarding.
- Optimized app performance to ensure high responsiveness for video streaming.

HealMB - The Healing Center

02/2022 – 06/2022

- Collaborated with a development team to build a personalized health platform using React and Redux.
- Contributed to the integration of Socket.io for real-time communication and live wellness updates.
- Co-developed interactive user dashboards to facilitate progress tracking and expert-led services.

Fajira Grocery Grocery Management App

01/2020 – 07/2020

- Developed a cross-platform e-commerce app to streamline online grocery shopping.
- Implemented features for real-time product browsing and seamless 24/7 ordering.
- Optimized the user interface to ensure a fast, hassle-free checkout experience.

DineHome Admin App

11/2018 – 02/2019

- Developed a centralized management app for restaurant owners to track sales, orders, and logistics.
- Implemented real-time driver tracking and automated push notifications for delivery coordination.
- Built comprehensive reporting tools for monitoring weekly and monthly income and outlet performance.

SOFT SKILLS

- Quickly adapting to new technologies and frameworks.
- Effective communication and coordination with team members using GitHub
- Adaptability and flexibility
- Collaborative team member in projects
- Efficiently manage project timelines, ensuring timely delivery of solutions.
- Continuous learner, keeping up with industry trends
